

Patch Upgrade Guidance for HD Cameras

This patch is only for the model FI9900P V7 with system firmware 1.11.1.13 and application firmware 2.x.1.78.

Preparation before upgrading:

1. Please restart your camera before the upgrading;
2. Connect camera to router with an Ethernet cable before upgrading;
3. DO NOT upgrade firmware via wireless;
4. DO NOT upgrade firmware over internet, just finish it in LAN;
5. Keep power on during the upgrading;
6. Logging your camera as administrator first, upgrade firmware on web page.
7. Suggest to unplug SD card before upgrade.

Step1: Login your camera from Foscam VMS, go to Settings-->System-->Patch Installation. Click Browse/Choose the File, find the file [Amba_patch_ver2.x.1.78_1_20201204.bin](#) you've extracted in your local hard driver, then click Open. Camera will upgrade after you click on Install Patch.

Step2: Login again to check if the patch was upgraded successfully.

End
