Setting Up Your Foscam Security Camera

1 *Getting Started*

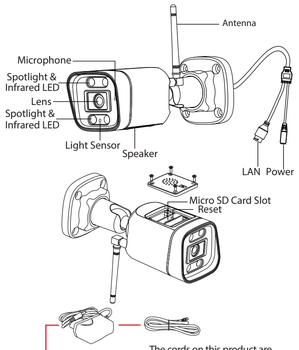

■ Package Contents

■ Safety Tips

- Please change the camera's password regularly, using a combination of numbers, letters and special characters.
- We recommend that you regularly update your camera with the latest available software and firmware to ensure the best experience with your camera.
- Please ensure that the proper power supply is used before using the camera.
- Do not use the device where wireless devices are not allowed.
- Do not disassemble, repair or modify the product.
- Do not use the product if the casing has been broken. Danger of electric shock.
- Please install the camera securely using the screws provided.
- Change the default port in your camera to a port in the higher range to improve the security of your connection.
- To avoid the risk of fire or electric shock, please keep your camera connectors in a cool, dry place.
- Please keep the camera out of reach of small children.
- Operating Temperature: -20°C ~50°C(-4°F~122°F).

2 *Physical Description*

The cords on this product are a potential strangulation hazard. For child safety, please keep these cords out of the reach of children.

3 Setting Up Your Camera: Connection via the Foscam App (Recommended)

■ Before You Get Started

Scan the QR code below to download and install the Foscam APP.

GET IT ON Google Play

Available on the App Store

To ensure a smoother video experience on your smart phone, it is recommended that your smart phone meet the following specifications:

- iOS: version 11 or higher.
- Android: 5.0 or higher, using a device with a Graphics Processing Unit (GPU).

Note: For the best experience, please update the APP to the latest version!

■ WiFi Connection

1. Please tighten the antenna clockwise and make sure it is in a vertical position.

2. Plug the power adapter into the camera, and please wait for a few seconds until hearing the **"Ready for WiFi configuration"**

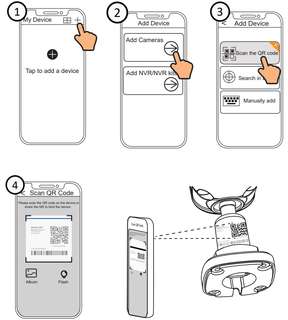

3. Make sure that your smart phone is connected to your WiFi router.

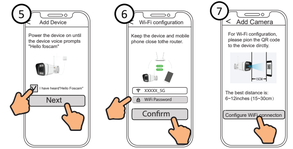

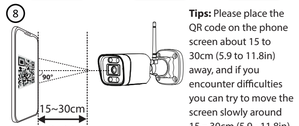

4. Open the Foscam APP and please register a Foscam account, or sign in if you have one already.

5. Follow the steps below:

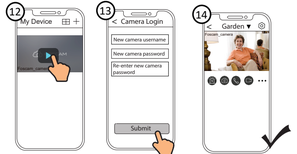

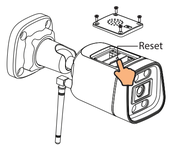

Tips: Please place the QR code on the phone screen about 15 to 30cm (5.9 to 11.8in) away, and if you encounter difficulties you can try to move the screen slowly around 15 – 30cm (5.9 - 11.8in).

Note: If the adding process fails, please reset your camera and try adding again according to the above method.

4 PC Access Your Camera

Foscam VMS

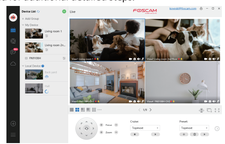

Foscam VMS is a new tool for PCs. It does not require plug-ins and is compatible with Windows & Mac, supporting all Foscam HD cameras and up to 36 cameras at the same time. If you would like to manage multiple cameras, we suggest you install Foscam VMS. You can download the "Foscam VMS "Windows version from **foscam.com/vms**, and can download the "Foscam VMS" Mac version from the APP store:
https://apps.apple.com/cn/app/foscamvms/id1521202507?mt=12

Note: For the best experience, please update Foscam VMS to the latest version!

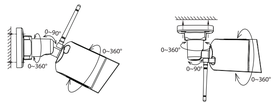

Add the IP Camera

1. Run Foscam VMS, then create a local administrator account or a Foscam account and login.
2. Tap the "+" icon on the Foscam VMS and follow the setup wizard to add your camera.

Please visit **foscam.com/downloads** to view the user manual and for additional detailed steps.

5 Hardware Installation

Point the camera at the desired location and use the screws provided to mount it.

Please Note:

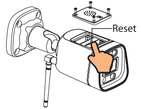

Ensure that rain or water will not reach the connector ports at the end of the tailcable. These connectors are not weather-resistant.

6 Important Notice

Camera Username & Password

The camera username & password are used to access and manage your camera. Having a strong password can significantly improve the security of your camera.

If you have forgotten either of them, please press the "Reset" button.

Press the "Reset" button and hold it for more than 3~5 seconds

Storage Media

Your camera supports cloud, NVR (Network Video Recorder), and Micro SD card (supports FAT32 and exFAT format) storage formats.

cloud Storage | NVR | Micro SD card (FAT32 & exFAT)

How to format Micro SD card, please follow the steps below:

4 Scan the QR code below to download the "FoscamFormat " Tool

foscam.com/downloads/app_software.html

5 Open the "FoscamFormat " Tool

7 Product Performance

WLAN frequency range: 2412MHz - 2472MHz and 5725MHz - 5850MHz
Maximum transmission power: < 18dBm
Wireless Standard: IEEE802.11b/g/n (2.4GHz) IEEE802.11a/n/ac (5GHz)
Power Supply: DC 12V 1.0A 12W

8 Troubleshooting

IP cameras is not powering on

If you find your camera is not powering on, please the following:

1. Please check whether the outlet is working properly or not. Try to plug the camera into a different outlet and see whether it will work.
2. Please check whether the DC adapter is working or not. If you have another 12V/1A power adapter which is working, please try with another power adapter and see whether it will work.
3. If it still won't work, please contact Foscam support.

How to re-configure the WiFi connection for Foscam cameras after router changed?

1. Please connect the camera to your router with an ethernet cable. If you can see the camera live video on the Foscam app, please go to camera settings-->WiFi settings to choose the new WiFi name and input WiFi password to set up. After the WiFi settings is completed, please disconnect the ethernet cable from the camera and wait for some seconds to connect to the camera.
2. There is a need to reset the camera first. Please refer to https://www.foscam.com/faqs/view.html?id=13 to see the reset steps.
   Then please open the Foscam app to scan the QR-code of your camera to set up the wireless connection for the camera. Please make sure your cellphone is connected to that new WiFi.
